UX Designer

The Creative Group
Wilmington, DE

The Creative Group is looking for an experienced UX Designer to join us. In this role, you will be part of a multidisciplinary team of designers, planners and researchers committed to designing the future of banking.

This role requires a strong understanding of experience design for digital products and services of all kinds, sizes, shapes and contexts. This role will require a strong point of view on design, hands-on creation of experiences within a complex ecosystem and building meaningful relationships within the organization. An understanding of the principles of digital accessibility is preferred.

You will be working in a fast-paced environment alongside our design systems, graphics, architecture, product and engineering teams to deliver new experiences through effective artifacts (from Customer Journeys & Ecosystem maps to participatory design prototypes & wireframes).

Qualifications:

- Proven understanding of responsive web & mobile application design and wireframe development.
- Expertise in Sketch is a must.
- Must be able to prototype concepts for submission to user testing sessions.
- Ability to work with stakeholders to understand detailed requirements and design complete user experiences that meet client needs and vision.
- Ability to clearly and effectively communicate design processes, ideas, and solutions to teams and clients.
- A solid grasp of user-centered design and testing methodologies, subsystems, and usability and accessibility concerns.
- Ability to iterate your designs and solutions efficiently and intelligently.
- Preference will be given to candidates who have experience designing complex transactional solutions for complete digital environments.
- Basic HTML5, CSS3, and JavaScript skills are a plus. Understand how things work, embrace technical complexity.
- Help teammates, share knowledge and experience with them, and learn from them.
• Be open to receiving feedback and constructive criticism.
• Be passionate about all things UX and other areas of design and innovation. Research and showcase knowledge in the industry?'s latest trends and technologies.

Responsibilities:

• Translate concepts into wireframes and mockups that lead to intuitive user experiences.
• Facilitate product teams vision by researching, conceiving, wire-framing, sketching, prototyping, and mocking up user experiences for digital products.
• Design and deliver wireframes, redlines, user stories, user journeys, and mockups optimized for a wide range of devices and interfaces.
• Identify design problems and devise elegant solutions. Make strategic design and user-experience decisions related to core, and new, functions and features.
• Take a user-centered design approach and rapidly test and iterate your designs. Collaborate with other team members and stakeholders.
• Take smart risks and champion new ideas.
